Registration: 7:30am

Advanced Guided Surgery

FEATURING

THOMAS J. BALSHI, DDS, FACP
Board Certified Prosthodontist

GLENN J. WOLFINGER, DMD, FACP
Board Certified Prosthodontist

STEPHEN F. BALSHI, MBE
Biomedical Engineer

Please refer to the web site [iffe.net](http://www.iffe.net) for complete instructor bio information.

DESCRIPTION OF COURSE

This advanced course is for the clinician who is already certified and experienced with the NobelGuide™ protocol and the knowledge to perform virtual surgery for Teeth In An Hour™ treatment. Course participants are asked to bring their lap tops with the installed Procera software as a portion of the program will require its use. More challenging tasks with the Procera software such as placing implants that are tilted off axis, for example, the posterior implants of the All-On-4™ technique, pterygomaxillary implants, and zygoma implants are reviewed. An advanced guided surgery case is reviewed. Then, live patient CT data will be distributed to the course participants for conversion and 3D planning of the case. Live surgery of the same patient will follow. The live treated case will deviate from the standard NobelGuide™ protocol and the course will emphasize the necessary steps to avoid potential inaccuracies with those deviations.

EDUCATIONAL GOAL

Participants will have the knowledge to plan advanced surgeries on the Procera software as well as perform the advanced surgery for complex treatment.

EDUCATIONAL OBJECTIVES

- 1). To demonstrate the treatment planning and pre-surgical aspects of complex treatment.
- 2). To provide clinical instruction and hands-on dental implant virtual surgical training.
- 3). To provide clinical patient management before, during and after dental implant virtual surgery rehabilitation.

EDUCATIONAL METHODS

This course utilizes:

- Lectures and videos
- Hands-on computer training
- Computer manipulation and Virtual Surgery
- Observation of Virtual Surgery
- Virtual Surgery on your own computer
- Intra-oral video gives participants the "Surgeon's Eye View" of the live surgical procedure
- Interactive discussions during surgery

COURSE CONTENT

- Advanced Guided Surgery
- Use of the Procera planning software for positioning the implants in bone and developing the surgical guide and prosthesis for complex NobelGuide™ treatment
- Positioning and stabilizing the surgical guide in challenging patients
- Removal of surgical guide and placement of the adjustable or standard abutments and prosthesis

Sponsored by
The Institute For Facial Esthetics
and Nobel Biocare

TUITION: \$ 1,250.00

IFFE designates this activity for 8 hours continuing education credit.

IFFE is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/goto/cerp.
